

I listen to K-LOVE daily on 88.9FM. Because there are no other stations which play contemporary Christian music, our community would really miss this station. I am a worship leader and am able to learn new songs for our church from KLOVE. The message and music is very positive and uplifting which provides an alternative to our youth to some of the more destructive types of music. Providing positive input to our youth always serves the best interest of the public. Please preserve the ability for KLOVE to be heard in the geographical locations that it presently serves.
